NICK SMITH

SOFTWARE ENGINEER

CONTACT

P: 412-526-3809
E: nicholas23smith@gmail.com

DEV SKILLS

- **JAVASCRIPT**
- **HTML**
- **CSS**
- **REACT**
- **PYTHON**
- **SQL**
- **NOSQL**
- **NODE JS**
- **JQUERY**
- **DJANGO**

CERTIFICATIONS

GENERAL ASSEMBLY | SOFTWARE ENGINEERING IMMERSIVE

- 12 week, full-time (60+ hrs/wk) immersive with study in software engineering and web development concepts, practical use-case, and industry best practices.
- Programming Languages: HTML, CSS3, Javascript, Python
- Libraries & Frameworks: Bootstrap, JQuery, Bulma Io, Material, Node, Express, React, Mongoose, Django
- Databases: Postgres, SQL, NoSQL, MongoDB
- Skills: Git, Github, Slack, Responsive Design, Wireframes, Figma, Object-Oriented Programming, AJAX, REST

GENERAL ASSEMBLY | FRONT END WEB DEVELOPMENT

- Gain hands-on experience with industry-standard tools — HTML5, CSS3, JavaScript (ES6) — to build rich, interactive websites.

EVOLVE SECURITY ACADEMY

- This module introduces core principles that are essential to forming a security mindset, which include the CIA Triad (Confidentiality / Integrity / Availability), Defense-in-Depth, Authentication, and Authorization.

SKILLS

- **PROBLEM-SOLVING**
- **LOGICAL THINKING**
- **SOFTWARE TESTING & DEBUGGING**
- **TIME & TASK MANAGEMENT**
- **SELF TEACHABILITY**
- **TEAM ORIENTED**

ABOUT

I started immersing myself in technology when I worked in the cybersecurity industry for 2 years gaining insightful knowledge that gave me a firm understanding of best practices in securing one's code and infrastructure. I'm resilient and disciplined in staying focused on completing my goals until the desired outcome is met, and I love going above and beyond, reaching for the stars to outperform expectations, and putting smiles on faces.

WORK EXPERIENCE

FRONT-END WEB DEVELOPER
RE:DESIGN - Visual Comunnications, Inc. | Mar 2022 - Present

- Built front-end functionality with HTML5, CSS and Javascript.
- Developed and implemented best practices to achieve the design and aesthetic of the page, requested by the client.
- Devised custom software solutions for functionality of the navigation and website.
- Designed innovative solutions and documented resolutions for inclusion in the knowledge base for support team use.

SOFTWARE ENGINEER FELLOW
General Assembly Student | Dec 2021 - Mar 2022

- Successfully completed 500+ hours of expert-led instruction in Javascript, HTML, CSS, Node.js, SQL, and hands-on learning of Software Engineering fundamentals and the industries most in-demand technologies. Developed projects, including:
- Pokemon: Built with Javascript, JQuery, CSS, HTML - An in-browser Javascript version of the classic Pokemon game. Github: https://github.com/smithereens23nas/Pokemon
- Deployed: https://smithereens23nas.github.io/Pokemon/
- Closed Ocean (NFTs) - Built with Javascript, MongoDB, Express, Node.js - A MEN-stack project with CRUD functionality for NFTs - Replicating OpenSea Marketplace.
- Github: https://git.generalassemb.ly/smithereens23nas/closedOcean
- Deployed: https://closed-ocean.herokuapp.com/home
- Zauben - Built with Postgres, Express, React, Node.js - A PERN-stack project building out a client-facing dashboard for the Chicago-based company Zauben, displaying real-time performance metrics for their client's vertical plant wall(s).
- Github (back-end) : https://github.com/smithereens23nas/Zauben-Dashboard-Backend
- Github (front-end): https://github.com/smithereens23nas/Zauben-Dashboard-FrontEnd

STRATEGIC PARNERSHIPS
Evolve Security | Apr 2019 - Mar 2020

- Building our sales pipeline with potential clients interested in improving their security posture. Involved in the full sales cycle from prospecting to quote generation to negotiating contracts, and managing client expectations.
- Implementing lead generation best practices and creatively innovating strategies through email templates, A/B sales messaging/testing methodologies, list segmentation, and cold calling.
- Ability to work with the delivery team to craft new solutions to client problems.

BUSINESS DEVELOPMENT REPRESENTATIVE
Trustwave | May 2018 - Apr 2019

- Proactively seeking new business opportunities in the enterprise west market
- Set up in-person meetings or calls between Fortune 500 clients and Account Executives/Security Engineers

EDUCATION

BACHELOR OF ARTS, MAJOR IN MARKETING

Indiana University of Pennsylvania | 2013 - 2017
GPA 3.45
